RetailEdge 2025.11.3 Release Notes
Published February 3, 2026

This release fixes a couple issues introduced in Version 2025.11.2.

When you see an update available, be sure to install it to keep your system running smoothly and up to date.

Fixes

When using Automatic Rounding on the sales screen (penny rounding) and always rounding down, the proper change is calculated.

The prompt to save changes on a purchase order is now only displayed if a change is made to the purchase order.
