# Send Emails Out Of RetailEdge

Training Videos · https://retailedge.com/docs/send-emails-out-of-retailedge

## *IMPORTANT GMAIL UPDATES*

1. Gmail now requires the use of TLS instead of SSL.
2. You must use port 587.
3. You must also have the checkbox for "Use SSL with SMTP Server?" checked.
4. An app password and 2 Factor Authentication are also required.
